

FUNO Earnings Release 2015 First Quarter

I. CEO Comments

I am pleased to share Fibra Uno's solid first quarter 2015 earnings, which continue to show both, the robustness of the business and a solid performance during the first three months of the year. As of the close of the quarter, our revenues reached over 2.2 billion pesos on 6.0 million square meters of gross leasable area with a consolidated occupancy rate of almost 95%.

During the quarter we closed the acquisitions of the Utah and the Florida portfolios, with a GLA of 16,348 thousand square meters and 21,755 thousand square meters, respectively. These two portfolios added our office segment, which reached an occupancy rate of 92%, as we anticipated late last year. These properties have Premium locations in the corridors of Insurgentes and Reforma-Lomas. In addition, Fibra Uno has four acquisitions under review before the COFECE, which we expect to close during the second quarter. The acquisition portfolios under review include Kansas, Oregon, Indiana and Buffalo, which will require over Ps 21.9 billion.

At the beginning of February, we issued bonds in two tranches for a total of Ps. 10 billion in the local market. The first tranche was a re-tap of our FUNO 13 bond for Ps. 2.5 billion at TIIE + 39 bps. The second tranche was a new 10.5 year fixed rate bond for Ps. 7.5 billion which we were able to issue almost at the lowest point for interest rates in the Mexican market this year, locking a fixed rate coupon of 6.99%.

Our operations resulted in quarterly revenues of Ps. 2,225 million representing an increase of 5% compared to 4Q14. In terms of distribution, and in line with Fibra Uno's commitment of distributing at least 95% of our taxable income, we will make a distribution of Ps.0.4921 per CBFI as before May 11, 2015.

I want to comment on the status of the funds raised during our most recent follow on in June 2014, which we committed to deploying within a term of 12 to 18 months. As of today, we have deployed or committed all of the proceeds from the offering with the acquisitions mentioned above as well as with some debt prepayments (for a total of approximately Ps.36 billion). After the follow on, we focused on acquisitions of stabilized properties first, and have left development opportunities for later to minimize the dilutive effect of the large capital raise.

With the Buffalo acquisition, we have now moved to development opportunities. The Buffalo portfolio represents a unique opportunity, that, in its most conservative scenario (which does not consider substantial synergies with our Centro Bancomer portfolio) would deliver over 12% yield on cost. For the R15 portfolio, we are on track to close on 60% of the potential NOI in the coming 6 months, including Galerias Guadalajara and Peninsula Vallarta. We are not certain of the possibility to close on the remaining 40% of the R15 properties in their entirety. However, our controlling group owns a 50% stake in these remaining properties, therefore there is a possibility that we could achieve up to 80% of the potential R15 expected NOI.

We have decided not to close on the Masaryk 111 property for the time being, since we discovered a tax contingency during our due diligence process.

Lastly, also during this very active quarter, we launched the capital raising process for a new development vehicle managed entirely by FUNO. We are very pleased with its progress so far, since the initial indications of interest from prospective investors have been very positive. We expect to close the capital raising for the vehicle in the coming months and continue leading all aspects of the Mexican Real Estate sector.

We, at Fibra Uno, are continuously working to create value for our stakeholders in a world class company.

André El-Mann, Chief Executive Officer, FUNO

II. FIRST QUARTER HIGHLIGHTS

^{(1).} Million of CBFIs

^{(2).} Margin over Total Revenues

⁽³⁾ Margin over Total Rental Revenues
(4) Number of properties in operation and 445 properties
(5) Includes Torre Mayor Revenues

- The 445 properties in operation generated rental income of Ps. 2,032,0, which represents a 5.6% increase from Ps. 1,923.6 million recorded in 4Q14. The revenue increase is primarily due to natural growth of new spaces leased and the incorporation of Samara portfolio, as well as the depreciation of the Mexican Peso.
- FUNO's net operating income (NOI) in 1Q15 was Ps. 1,787.1 million, representing a 4.5% increase from Ps. 1,710.3 million generated in 4Q14. The average NOI margin over total income was 80.3%.
- Interest expense in 1Q15 was Ps. 595.4 million, representing an increase of 30.3% compared to Ps. 456.9 million pesos paid in 4Q14.

 This increase is mainly due to bonds issued last January in two tranches totaling Ps. 10,000 million.
- The exchange rate at the close of 1Q15 was Ps. 15.2427 pesos, representing a negative variation of 3.3% compared to Ps 14.7348 at the end of 4Q14, which is reflected in an exchange loss in the results of 1Q15 of Ps. 784.3 million pesos.
- Funds from operations in 1Q15 amounted to Ps. 1,240.1 million, representing a 2.7% decrease from 4Q14. If we exclude the effect of the new bond, the increase would have been 5.4% when compared to 4Q14 and per CBFI the increase would have been 4.1%.
- The occupancy rate of our portfolio comprising 445 stabilized properties in 2014 was 94.9%, which shows a decrease of 0.47% derived from natural and early termination of some leases that were not renewed in some properties, primarily in the industrial and retail sectors.
- The number of CBFIs increased in 100,470,000 due to the acquisition of Samara.

Performance Constant Properties for the 1Q15

During the first quarter of 2015, our total revenues at constant properties (measured as income / m2 / month) grew 6.5%, representing an increase of 3.3% above inflation. By sector, we obtained a growth of 6.8% for industrial, 8.5% for commercial and 8.4% for office.

| Revenues | 1Q1 4 | 1Q15 | % Variation |
|---------------------------------|---------------|---------------|-------------|
| Industrial | 483,425,377 | 549,658,544 | 13.7% |
| Retail | 825,148,161 | 897,491,014 | 8.8% |
| Office | 263,615,010 | 296,698,594 | 12.5% |
| TOTAL | 1,572,188,548 | 1,743,848,152 | 10.9% |
| GLA (m²) | | | |
| Industrial | 2,696,446 | 2,858,894 | 6.0% |
| Retail | 1,974,580 | 1,971,164 | -0.2% |
| Office | 420,702 | 420,982 | 0.1% |
| TOTAL | 5,091,728 | 5,251,041 | 3.1% |
| Occupancy | | | |
| Industrial | 97.3% | 97.7% | 0.4% |
| Retail | 94.0% | 94.4% | 0.4% |
| Office | 86.0% | 89.2% | 3.8% |
| TOTAL | 95.1% | 95.8% | 0.7% |
| Rent / m ² / Monthly | | | |
| Industrial | 61 | 66 | 6.8% |
| Retail | 148 | 161 | 8.5% |
| Office | 243 | 263 | 8.4% |
| TOTAL | 110 | 117 | 6.5% |

- Revenues in the industrial segment for 1Q15 amounted to Ps. 549.6 million, representing a 13.7% increase from 1Q14. This growth stems mainly from the development of gross leasable area in the G30 portfolio and a higher occupancy at the Maine portfolio.
- Revenues in the commercial segment for 1Q15 totaled Ps. 897.5 million, representing an increase of 8.8% from 1Q14, and were mainly explained by the incorporation of the Apolo, higher occupancy at the Morado portfolio, as well as due to contract renewals above the inflation rate.
- Revenues in the office segment for 1Q15 amounted to Ps. 296.7 million, a 12.5% increase from 1T'14, mainly stemming from a higher occupancy at the Morado portfolio.

Credit Profile

As of the quarter ended March 31, 2015, FUNO was in full compliance with the covenants included in its public debt issuances:

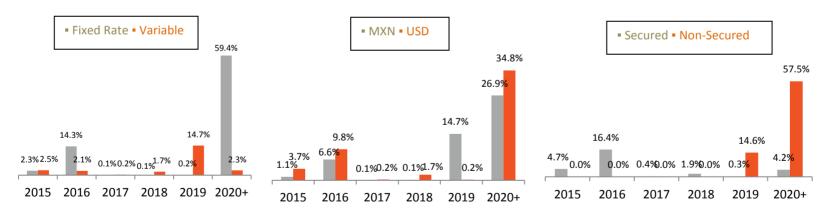

| | FUNO | Limit | Status |
|------------------------------|--------|---------------------------|--------|
| Loan to Value: (LTV): | 30.2% | Less or equal to 60% | Comply |
| Limit on secured debt: | 8.45% | Less or equal to 40% | Comply |
| Debt service coverage ratio: | 2.17x | Greater or equal to 1.50x | Comply |
| Unencumbered asset ratio: | 355.9% | Greater or equal to 150% | Comply |

CNBV new Fibra's Regulation:

| | FUNO | Limit | Status |
|--|--------------------------|--------------------|-----------------|
| Loan to Value (LTV): | 30.2% | Less or equal to 5 | 0% Comply |
| Debt Service Coverage Ratio ⁽¹⁾ : | 2.92x | Greater or equal t | o 1.0x Comply |
| Liquid Assets' | (2) | | Ps. 29,137.9 mm |

| Debt Service | | | Ps. 12,331.0 mm |
| Capex | | | Ps. 2,068.6 mm |
| | | Subtotal | Ps. 14,399.5 mm |

- (1) (Liquid Assets + Op. Income after Distributions + Lines of Credit / Debt Service + Capex) measured for the next 18 months
- (2) Includes cash & cash equivalents, recoverable VAT and excludes the restricted cash and reserve funds of bank loans

IV. FIRST QUARTER DISTRIBUTION

Amongst FUNO's commitments is the creation of value for CBFI holders, so the Technical Committee approved a distribution of payments totaling Ps. \$1,471.0 million for the period from December 1, 2014 to March 31, 2015. The distribution amounts to a payment of Ps. \$0.4921 by CBFI. Under Mexican law, FUNO is required to pay at least 95% of its annual taxable income to CBFI holders at least once a year.

Since its inception, FUNO quarterly distributions declared payments carried out 4 times a year. The effect of creating value for our business strategy can be seen in the inter-annual growth of our dividend CBFI observed in Comparative shown below. The dividend per CBFI grew by 22%, 29%, about 7% for 2012, 2013 and 2014 respectively, even considering the increase in the number of CBFIs from capital increases and acquisitions made with CBFIs.

Distributions paid to date are as follows:

| | 20 |)11 | 201 | .2 | 201 | L3 | 20: | 14 | 2015 | 5 |
|----|--------|--------|---------|--------|---------|--------|--------|-------|--------|------|

Fideicomiso Irrevocable No. F/1401 Deutsche Bank Mexico, S. A. Institución de Banca Múltiple, División Fiduciaria) and Subsidiaries

Notes to the Consolidated (Condensed) Financial Statements

For the period ended March 31, 2015 and the year ended December 31, 2014 (In thousand pesos)

1. General information, acquisitions and relevant events

a) General information

The Fideicomiso F/1401 de Deutsche Bank Mexico, S. A., ("Fibra UNO" or the "Trust") was established as a real estate trust on January 12, 2011 by Fibra Uno Administración, S. A. de C. V., (the "Trustor") and Deutsche Bank Mexico, S. A., Institución de Banca Múltiple, División Fiduciaria (the "Trustee"). Fibra Uno started operations in March, 2011 and was established mainly to acquire and own a variety of real estate properties for the purpose of leasing and developing commercial, industrial and mixed-use properties as well as office buildings and land in Mexico.

Fibra Uno, as a real estate investment trust ("FIBRA"), qualifies to be treated as a pass-through entity for Mexican federal income tax purposes. Therefore, all income derived from Fibra Uno's operations is attributed to the holders of its real estate trust certificates (Certificados Bursátiles Fiduciarios Inmobiliarios or "CBFIs") and the Trust is not considered a taxable entity in Mexico. In order to maintain FIBRA status, the Mexican Tax Administration Service ("SAT") has established, as per articles 187 and 188 of the Mexican Income Tax Law, that Fibra Uno must annually distribute at least 95% of its taxable income to its CBFI holders.

For its operation, Fibra Uno has entered into the following relevant contracts:

- i. An advisory agreement with Fibra Uno Administración, S. A. de C. V. ("Fibra Uno Administración") for the Advisor to assist Fibra Uno in establishing and implementing its investment and financial strategies;
- ii. A property management agreement with F1 Management, S. C. ("F1 Management") and F1 Controladora de Activos, S. C. ("F1 Controladora") (subsidiary companies) to conduct Fibra Uno's day-to-day operations management;
- iii. A services agreement with F2 Services, S. C. ("F2 Services") (related party) to perform certain services related to billing and collection on behalf of Fibra Uno, subject to its supervision and monitoring;
- iv. An advisory, property management and service agreement with Jumbo Administración, S. A. P.I. de C. V. ("Jumbo Administración") (related party) with similar characteristics to those previously described on certain properties;
- v. A property management agreement with Finsa Holding, S.A. de C.V. to conduct day-to-day operations management of the Finsa portfolio ("Finsa");
- vi. A property management agreement with Hines Interest, S.A. de C.V. to conduct day-to-day operations management of the Maine portfolio ("Maine").
- vii. A property management agreement with GP Servicios Industriales, S.A. de C.V. to conduct day-to-day operations management of the California portfolio ("California").
- viii. A property management agreement with Consultora Centro Historico, S.A. de C.V. to conduct day-to-day operations management of the Hotel Centro Historico.

Fibra Uno's fiscal headquarters are located at Quintana Roo No. 3 Despacho 303 Col. Roma Sur, Mexico City.

b) Acquisitions registered during the first quarter of 2015

| Portfolio | Acquisition |
|-----------------------|-----------------------|
| | |
| Portfolio Florida (i) | Investment properties |
| Portfolio Utah (ii) | Investment properties |

- i. Fibra UNO registered the purchase of the corporate offices called portfolio Florida, which is located in Mexico City in the corner of Avenida Insurgentes Sur and Barranca del Muerto. The total purchase price was for \$640.098.
- ii. Fibra UNO registered the purchase of corporate offices called portfolio Utah, which is located in Mexico City in the Corredor-Lomas Reforma. The total purchase price was for USD\$. 67.9 million, equivalent to Ps. 1,010,664.

c) Relevant Events

- i. In January 2015, Fibra UNO signed the purchase of three stabilized commercial centers in Mexico City. The agreed price was Ps. 1,625.0 million, including the approximately Ps. 400 million in debt. The selling party has the option to pay the debt before finalizing the sale of assets, otherwise Fibra UNO will settle the debt upon the purchase of the real estate. It is always the intention Fibra UNO that these assets are added debt-free to its portfolio. The transaction will be paid with CBFIs and may include a cash component (if UNO Fibra settles the debt). It is noteworthy to say that there is a clause in the agreement under which the purchase price may be changed if the net operating income of these properties changes within the period of closing of the transaction. This acquisition was recently approved by the Federal Economic Competition Commission (COFECE).
- ii. In February 2015, Fibra UNO made bond issue in the local market in two tranches; one fixed and the other variable rate, both under a program of share certificates for Ps. 25,000 million. The fixed rate issue was Ps. 7,500 million with a coupon of 6.99% with a maturity of 10.5 years, while the variable rate was a reopening of FUNO 13 for Ps. 2.500 billion bringing the total of Ps. 6.850 million for this issue, at a rate of TIIE + 0.80%

2. Basis of presentation

a. **Reclassification** – The financial statements for the year ended December 31, 2014, have been reclassified certain items to conform to the presentation used in 2015.

b. Adoption of new norms

Fibra UNO has applied the following new and revised existing, applicable to their business, IFRS for annual periods beginning on or after January 1, 2015:

IFRS 9, Financial Instruments and IFRS 15, Income Customer Agreements
Amendments to IFRS 11, Accounting for Acquisitions Investment in Joint Operations
Amendments to IAS 16 and IAS 38, Clarification Methods Depreciation and Amortization
Amendments to IAS 27 Separate financial statements

The application of these standards in these condensed consolidated financial statements for the period ended March 31, 2015, has no material effects.

c. Seasonality

Fibra Uno's administration considers that its business is not subject to material seasonable variations.

| Balance at the end of the period \$ 118,085,121 | \$ 113,831,162 |
|---|-------------------|
| Fair value adjustments to investment properties 1,099,052 | 4,396,209 |
| Additions to investment properties 1,504,145 | 3,131,520 |

All of Fibra Uno's investment properties are held under freehold interests.

Fibra Uno's management obtains valuations by independent appraisers that hold recognized and pertinent professional qualifications and have relevant experience in the categories of its investment properties.

Management considers different valuation techniques under the income, market and cost approaches to estimate the fair value of investment properties and selects the most appropriate considering the particular circumstances of the property and availability of information, and seeking to maximize the use of observable data. First, the Trust considers the availability of current prices in an active market for similar properties in the same location and condition and subject to similar lease and other contracts. However, in most cases, it uses a discounted cash flows technique given the availability of information.

The discounted cash flows valuation technique requires the projection of future estimated cash flows from a property in operation or under development. Future estimated cash flows include revenues taking into account occupancy rates and uncollectibles, less operating expenses. These cash flows are discounted at an appropriate discount rate, derived from market participants' assumptions to determine the present value of the cash flows, which represent fair value.

At March 31, 2015, Fibra UNO estimates the effect on the fair value of investment properties is Ps. 1,099,052 and at December 31, 2014, it was Ps. 4,396,209.

7. Advance payments for future investments

| | March 31, 2015 | March 31, 2014 |
|--------------------------------------|-----------------------|------------------------|
| Portfolio Bufalo Portfolio Kansas | \$ 506,736 400,000 | \$ 506,736 400,000 |

- Fibra Uno is required to pay, on or before the due date, all property and other related taxes due related to its operations.
- Maintain in good condition all properties and assets necessary for the proper operation of the Trust's business, outside of the normal use, wear and tear of the properties.
- Maintain insurance on assets, with reputable agents, for amounts to cover risks associated with and sufficient to replace or repair damage to the properties.
- Maintain a debt service ratio (net operating income (NOI) divided by debt service, as those terms are defined in the indenture) of less than 1.2 to 1.

- Do not reduce the trustors' capital below Ps. 7,500 million.
- Total unsecured assets. Maintain total unsecured assets which at all times represent no less than 150% (a hundred and fifty percent) of the total principal amount due of the unsecured debt of the Trust and its Subsidiaries.
- Neither the Trust nor any of its subsidiaries may assume additional debt if, when that and other additional debt and becomes effective from the date on which the most recent full quarter ended previous to the assuming of that debt to the date the additional debt became effective on a pro-forma basis, total Company's unpaid debt balance is over 60% (sixty percent) of the sum of: (i) total assets as of the end of the most recent full quarter, and (ii) total acquisition price of real assets and total resources raised through securities issuances (when those assets have not been used to acquire other assets or reduce debt) made by the Company or any of its subsidiaries since the ending date of the most recent full quarter.
- Neither the Trust nor any of its subsidiaries may assume additional debt if, when that additional debt becomes immediately effective, the ratio of consolidated available income for debt service and annual debt service amount for the last four consecutive quarters previous to that additional debt being assumed, were less than 1.5:1 on a pro-forma basis, after that additional debt becomes effective and the net resources are effectively applied.

The maturities of the long-term portion of the liabilities as of March 31, 2015, are:

| Maturity | 3 | 31/03/2015 | | | |
|-----------------|----|------------|--|--|--|

a) At the annual holders on April 4, 2014, a long term executive compensation plan was authorized based on the issuance of 162,950,664 payable CBFIs to 10 years, granting no more than 10% of the plan year except where in previous years it had not been granted in which case up to 20% can be granted per year. Fibra UNO recorded as an expense on a straight-line basis over the period of granting an estimate of the CBFIs that eventually will be awarded. At year-end Fibra UNO revise its estimate of the number and amount of CBFIs that are expected to be awarded by relying on valuations performed by independent appraisers qualified. At March 31, 2015, the estimate will be registered by Fibra UNO in the consolidated condensed comprehensive income is for Ps. 164.621 and at December 31, 2014 the estimate for executive compensation plan based on studies by independent experts amounted to Ps. 530.280.

12. Minimum Income from future leases

The value of the minimum lease payments is documented existing accounts receivable under operating leases.

14. Operations and balances with related parties

Contributions

a. The Trust's capital consists of an initial contribution of Ps. 1,000, and the resources obtained from the issuance of CBFIs.

- b. As of March 31, 2015 and 2014, there were 2,988,764,820 and 1,893,424,876 CBFIs outstanding respectively, and as of December 31, 2014, there were 2,878,386,926 CBFIs outstanding.
- c. As of March 31, 2015 and 2014 Fibra UNO has distributed as reimbursement capital Ps. 1,407,521 and Ps. 430.001 respectively, and at December 31, 2014, Fibra UNO distributed as reimbursement capital Ps. 1,847,542.

Distributions

The Technical Committee of Fibra Uno has approved and paid distributions of the taxable income corresponding to the CBFI holders according to the following schedule:

| Distribution Date | Di | Distribution | |
|-------------------------------|----|--------------|--|
| | | | |
| February 16, 2015 | | 1,407,521 | |
| | | | |
| Total as of March 31, 2015 | \$ | 1,407,521 | |
| | | | |
| February 13, 2014 | | 868,327 | |
| | | | |
| Total as of March 31, 2014 | \$ | 868,327 | |
| | | | |
| November 7, 2014 | | 1,432,474 | |
| August 11, 2014 | | 1,154,948 | |
| May 9, 2014 | | 826,813 | |
| February 13, 2014 | | 868,327 | |
| | | | |
| Total as of December 31, 2014 | \$ | 4,282,562 | |

15. Income taxes

In order to maintain the FIBRA status, as established by the SAT following the articles 187 and 188 of the Mexican Income Tax Law, Fibra Uno must annually distribute at least 95% of its taxable income to holders of its CBFIs. There are temporary and permanent discrepancies between the integral result shown in the financial statements attached, and the fiscal result that is used for the calculation of the distribution to holders of CBFIs. As a result, management conducts conciliation between both bases to determine the amount to be distributed. The greater differences correspond to: (i) adjustment to the valuation of investment properties, (ii) inflationary adjustment and

(iii) the fiscal depreciation.

Taxable income distributed for the year 2014 was for Ps. 1,996,695.

As of March 31, 2015, Fibra UNO has not distributed its fiscal results. As of March 31, 2014 Fibra Uno has distributed Ps. 438,326 and as of December 31, 2014, Fibra UNO has distributed Ps. 2,435,020, of which Ps. 438,326 are for the year 2013.

16. Commitments and contingencies

- a. Neither the Trust nor its assets are subject to any type of legal action, except those derived from their operations and daily activities.
- b. As part of the constitution contributions, Fibra Uno acquired certain properties that were partially financed with the resources obtained in the IPO. Part of the acquisition price of said properties depends on the completion of the construction of certain properties as well as meeting certain occupancy levels. Given that these contingencies have not been met, Fibra Uno has not made such payments and thus, it has a recognized liability under the item "Accounts payable for the acquisition of investment properties".
- c. On 22 de marzo 2015, the Technical Committee approved, as per the prior approval of the majority of its independent members the return of capital distributions in the amount of Ps. 1,471.0 million. This distribution was paid on May 11, 2015.
- d. Under the terms established on the management contract, Fibra Uno will pay Jumbo Administración, S. A. P. I. de C. V., an amount equal to (i) 3% of the revenue collected from the Morado Portfolio, (ii) the total amount of the maintenance fees, advertising and services charged to tenants and property users following its respective lease contract, and (iii) 0.5% of the annualized value of the real estate assets contributed to the Trust, payable on a quarterly basis.
- e. Under the terms established by the services contract, Fibra Uno will pay Cabi Inver, S. A. de C. V. and Luxe Administración y Control Inmobiliario, S. A. P. I. de C.V., the equivalent of 5% of the rental revenue for each new lease agreement on the Morado Portfolio (excluding renewals or contract extensions of existing tenants), through the Real Estate agent, including the key money, limited to a term of 5 years.
- f. As part of the acquisition of the G-30 Portfolio, Fibra Uno is obliged to pay the necessary costs for the completion of certain construction works that are currently under development for an approximate amount of Ps. 5,700,000 of which Ps. \$4,963,138 has been paid.
- g. On February 5, 2015, October 22, 2014, August 11, 2014 and April 29, 2014, the Fibra UNO Technical Committee approved the audit committee prior approval of distributions of net taxable income accounts and reimbursement corresponding to the profit for 2014 equity of Ps. 1,407,521, Ps. 1,432,474, Ps. 1,154,948 and Ps. 826.813, respectively. These distributions were paid by Fibra UNO on February 16, 2015, on November 7, 2014, on August 11, 2014 and May 9, 2014, respectively.

2. Subsequent Events

i. On April 1, 2015, Fibra UNO made the prepayment in dollars of a debt contract with Metlife, Said debt was assumed as part of the USD\$ 30.2 million acquisition of the Hilton Historic Center, the loans bore interest at a fixed rate of 7.5%.

3. Approval of the financial statements

The accompanying condensed consolidated financial statements and their notes were authorized for issue by the Lic. Gerardo Vargas Ateca, according to approval at the meeting of the Technical Committee in April 22 2015.

VI. INFORMATION ABOUT ESTIMATES AND ASSOCIATED RISKS

The information presented in this report contains certain forward-looking statements and information related to FUNO ("FUNO" or "Trust") that are based on management's views, as well as information and expectations base on information available to FUNO. Forward looking statements reflect current views of FUNO regarding future events and are subject to certain risk, uncertainties and future events. Many factors may cause that such results, performance, or current milestones of the Trust be materially different from any future event, performance or current milestone that FUNO may predict, forecast or imply in its forward looking statements, including among others: changes in economic condition or politics, changes in government and commercial policy worldwide or in the countries where the Trust conducts business, changes in interest and inflation rates, foreign exchange volatility, changes demand and regulation of the goods commercialize by the Trust, changes in the price of commodities and other basic goods, changes in the business strategy and other factors. If one or more risks or uncertain factors materialize, o if the premises used are incorrect, the real results can materially differ from those described in the present report as expected, believe, estimated or anticipated. FUNO does not pretend nor does it assume the obligation to update in forward looking statements.

VII. ABOUT FUNO

FUNO is a Mexican trust formed primarily to acquire, own, develop and operate a wide range of properties, including industrial, retail office and mixed-use in Mexico. Our objective is to bring attractive returns to the holders of CBFIs through the stable cash distributions and the appreciation of our assets. The Trust began trading on the Mexican Stock Exchange on March 18, 2011. Currently, it has 445 properties in operation in 31 states in the Mexican Republic with an approximate GLA of 6.0 million square meters. FUNO is continuously analyzing a series of properties to buy or lease with the goal of increasing the revenue of its portfolio. Under Mexican Law, a Fibra has the obligation to invest at least 70% of its assets in properties for lease, among other conditions. Additionally, a Fibra must also distribute at least 95% of its net annual taxable income to CBFIs holders once a year. Said characteristics, added to a solid performance of the real estate market in Mexico and a management team with three decades of experience in the real estate segment, make FUNO an attractive investment vehicle.

FUNO is internally managed by F1 Management, S.C., and externally advised by FUNO Administración S.A. de C.V., a Mexican real estate operator with a management with more than 30 years of experience in developing and operating real estate properties in Mexico.
