

ABOUT US

We seek to foster development in the communities where **FUNO**® operates.

OUR SCOPE

The donations serve to support infrastructure, education, security and environmental conservation initiatives.

OUR STRATEGY

We are aligned to the Sustainable Development Goals, following three strategic lines: **Society**, **Infrastructure** and **Security**.

SOCIETY

We build partnerships and alliances with different organizations to support Mexican communities.

EDUCATION

Our purpose contemplates all trades, from edification and operation to dedicated places for talent development, like the “**Arte FUNO**” program.”.

INFRASTRUCTURE

We promote the appropriate development of communities through sustainable and resilient infrastructure, as a support to local economies.

We re-built more than 100 houses at Iztapalapa and Cuajimalpa, after the 2017 earthquakes.

We supported “Pro-Bosque Chapultepec” Trust, to build a new recreational park in Mexico City.
